

▶ Product Overview

Polycom® HDX 6000 View Media Center

The HDX 6000-View Media Center product is an executive “huddle” system and a small conference room system for a group of participants and in a conference room. The HDX 6000-View Media Center is a complete table top, or with the optional wall mounting kit a wall mount, unit that provides an easy installation with just 4 cables. The HDX codec and EagleEye View camera mount on the installed mounting bracket. Simple to install; and since it is a Polycom solution - it is also simple to use.
